

THE VIPER SL™

PROFESSIONAL SERIES

Designed for maximum performance, power and reliability.

400 Watt with 2" Inlet/Outlet & 2" Flowswitch

400 Watt with 3" Inlet/Outlet

800 Watt with 6" Inlet/Outlet

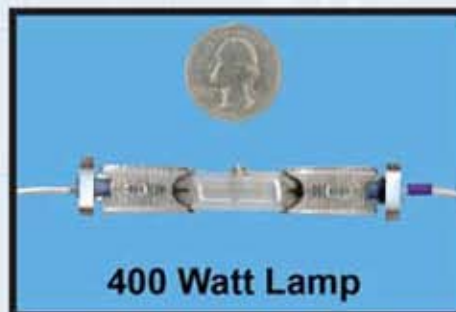

800 Watt with 6" Inlet/Outlet with Wiper

Performance Matters the Viper SL™ Delivers

The Viper SL™ Series UV Sterilizers deliver the highest UV output and flow rates at a fraction of the size.

- Replace multiple low pressure lamp units with a high output Viper
- Smaller space required for installation.
- High intensity lamp disinfects faster and has greater UV penetration
- Plastic models are recommended for salt water.
- Stainless steel or plastic models are used for fresh water
- Viper SL™ units are available in 2", 3", 6", 8", or 10"
- Custom sized housings are built to order.

400 Watt Lamp

Use only Aqua UV replacement lamps
Tests prove they have the highest UV output in the 254 Range

Model	Min Flow Rate (GPM)	Lamp Input Watts	30,000 µw/cm ² (EOL) GPH
400	95	400	17,500
800	95	800	35,000
1200	95	1200	52,500

Custom Vipers are available to accommodate higher volumes and flow rates.
